OBJECTIVE

Motivated and detail-oriented MCA student specializing in Artificial Intelligence, NLP, and Computer Vision, seeking an entry-level Software Engineer or AI/ML role to build scalable, intelligent systems using Python, FastAPI, and modern machine learning frameworks.

EDUCATION

Master of Computer Applications, SRMIST Expected 2026
CGPA: 9.44

Bachelor of Computer Applications, ST.Anne's Arts and Science College 2021 - 2024
CGPA: 7.32

SKILLS

Technical Skills Java, Python, SQL, HTML, CSS, NLP, Flask, Encryption Algorithms,
Machine Learning, Neural Networks, Computer Vision

Tools and Others MS Office, Typewriting

EXPERIENCE

Intern Jan 2026 - Present
Neural Transformers.AI *Chennai, India*

- Designed and developed a Smart PDF Contract Analyzer leveraging Retrieval-Augmented Generation (RAG) to enable intelligent question-answering over legal documents.

PROJECTS

Smart PDF Contract Analyzer Built an AI-driven contract analysis platform using FastAPI and a RAG architecture. Implemented PDF processing, text chunking, embedding generation, vector similarity search, and LLM-based clause analysis to enable intelligent, context-aware question answering over legal documents. ([Try it here](#))

Automatic Q and A Generator Designed and implemented an NLP-driven application that generates structured question-answer pairs from input text using NLTK techniques such as corpus preprocessing, POS tagging, and syntactic parse tree analysis. Integrated the system with a Flask backend and a responsive HTML, CSS, and JavaScript interface for seamless user interaction.

Face Recognition Attendance System Designed and implemented a real-time automated attendance system using OpenCV and deep learning-based face encoding for accurate facial identification. Integrated SQLite for persistent attendance tracking (In-Time/Out-Time) with duplicate-prevention logic, live sidebar analytics, and real-time total presence count, improving attendance efficiency and eliminating manual entry errors.

ACHIEVEMENTS

- Secured **3rd Prize** in the Database Designing Competition at BITSYNC 2.0 conducted by Agurchand Manmull Jain College, demonstrating strong database modeling and SQL skills.
- Achieved **First Class with Distinction** in English and Tamil Typewriting Certification, showcasing proficiency in typing accuracy and speed.

LEADERSHIP

- Appointed as **Registration Head** for TECHBLAZE 2K25 Symposium , overseeing participant onboarding, coordinating with organizing committees, and ensuring seamless event operations.
